SCHEDULE 3 - DATA ACCESS AGREEMENT

SCHEDULE 4 - CONTRIBUTING RESEARCH STUDY DATA

[CRS to complete]

SCHEDULE 5 STUDY APPROVALS PANEL (SAP) - ROLE AND MEMBERSHIP

ROLE OF THE SAP

The SAP shall ensure that a TPR Applicant shall not be permitted access to CRS Data where, in the opinion of the SAP, acceptance of the request will result in a sufficiently low level of data that creates a risk that an individual could be identified through access to that data, including through access to that data in combination with other external data.

Further consideration will be given to analytic methodology, ethical approvals and funding; however, approvals are fully at the discretion of the SAP.

When a TPR Applicant requests data from multiple CRSs, each of those CRSs shall form its own SAP, and the role of each SAP will be limited to considering approval of the use of that CRS's data by the TPR Applicant. The SAP will be supported administratively by DPAU.

MEMBERSHIP OF THE SAP

The CRS has full control of the membership of the SAP that shall be formed. SAP would ordinarily consist of:

- i. personnel of the CRS who are custodians of the data that has been requested,
- ii. the relevant Principal Investigators, and
- iii. other CRS personnel who have experience in research data governance.
